ABOUT ME

IT professional focused on Data Analysis, with an academic background in Information Technology Management and Systems Analysis and Development and four professional certifications in the field (IBM, Microsoft and Google). Knowledge of Python, SQL and Power BI applied to data analysis, process automation and BI. Solid background in systems maintenance and technical support (L1 to L3) in corporate and mission-critical industrial environments (Volkswagen, Boticário, Leclair), with ITIL, ServiceNow, GLPI, Active Directory, Azure and Microsoft 365.

SKILLS

BI & Data Tools: Power BI, Advanced Excel, Data Modeling

Programming Languages: Python, SQL, HTML, CSS

Cloud & Infrastructure: Active Directory, Azure, Microsoft 365, ServiceNow, GLPI, Zabbix, Grafana

Languages: Advanced English, Intermediate/Professional Spanish

CERTIFICATIONS

IBM Data Analyst Professional Certificate – IBM [Credential: 773K0IUQHUD5] **Jun/2026**

Microsoft Power BI Data Analyst Professional Certificate – Microsoft [Credential: K9DD1HRFPCP1] **Aug/2026**

IBM Machine Learning Professional Certificate – IBM [Credential: FADDT7115SL7] **Sep/2026**

Google Cloud Data Analytics Professional Certificate – Google [Credential: 89Q57CYHC9OM] **Oct/2026**

PROJECTS

Password Generator **JavaScript · CSS · HTML**

Web application for generating strong passwords, running entirely in the browser.

MacroFlow – Macro Automation **Python**

Windows desktop application that records and runs mouse and keyboard macros to automate repetitive tasks.

PROFESSIONAL EXPERIENCE

Leclair Cosméticos – Junior Systems Analyst **06/2026 – Present**

Maintenance and support of the IT environment, ensuring high availability of resources and support to administrative and industrial users (L1 to L3), including opening requests and managing tickets in GLPI. Identity and access management via Active Directory, Exchange and Microsoft 365, focused on JML (Joiner, Mover, Leaver) processes and permission management on File Servers. Infrastructure monitoring (servers, networks, storage and workstations) with Zabbix and Grafana for preventive action on failures. Survey and analysis of the machine fleet to plan a memory upgrade. Support for infrastructure projects, internal automations, IT governance controls and LGPD compliance.

T-Systems do Brasil Ltda. – Systems Support Technician I **12/2024 – 06/2026**

Support for critical production planning and control systems in the Volkswagen / Audi industrial environment, including monitoring of production process applications, user and permission management in Active Directory, support for Microsoft Azure and Microsoft 365, and incident and request management via SC3, following ITIL best practices.

Gobrax – Technical Support Assistant **09/2024 – 12/2024**

Technical support for users, preventive and corrective hardware maintenance, installation of corporate software, support in user and access administration, and documentation of technical procedures.

Stefanini Group – Junior L2 Support Analyst **03/2024 – 09/2024**

On-site and remote technical support for Grupo Boticário, with ticket management in ServiceNow, Windows and macOS rollout, account administration in Active Directory, Jamf and Azure, and technical documentation of incidents and solutions.

Cosmetici Group – Machine Operator / Production Assistant **04/2022 – 03/2024**

Worked in the factory environment focused on process optimization, inventory control and meeting production targets.

EDUCATION

PUC PR – Information Technology Management **Completed Aug/2026**

PUC PR – Systems Analysis and Development **Completed Aug/2025**
