- **IBM Machine Learning Professional Certificate** — IBM, Sep 2026 · Credential: FADDT7115SL7

EXPERIENCE

Leclair Cosméticos
Jun 2026 – Present
IT Analyst

- Support the IT environment to maintain high availability and provide Tier 1–3 assistance to administrative and industrial users.
- Administer identities and access through Active Directory, Exchange and Microsoft 365, including Joiner–Mover–Leaver processes and file-server permissions.
- Monitor servers, networks, storage and workstations with Zabbix and Grafana to identify and prevent infrastructure issues.
- Support infrastructure projects, internal automation, IT governance controls and compliance with Brazil's LGPD data-protection law.

T-Systems do Brasil Ltda.
Dec 2024 – Jun 2026
Systems Support Technician I

- Supported mission-critical production planning and control systems in Volkswagen and Audi industrial environments.
- Monitored production applications and installed, configured and maintained equipment, computers and peripherals.
- Administered Active Directory users and permissions and supported Microsoft Azure and Microsoft 365 environments.
- Managed incidents and service requests in ServiceNow under ITIL practices, contributing to continuous improvement and user training.

Gobrax
Sep 2024 – Dec 2024
Technical Support Assistant

- Provided user support and performed preventive and corrective maintenance on computers, notebooks and printers.
- Installed and updated corporate software, assisted with user accounts and access, diagnosed Windows issues, and documented technical procedures with the infrastructure team.

Stefanini Group Mar 2024 – Sep 2024

Junior Level 2 Support Analyst

- Delivered onsite and remote hardware and software support for Grupo Boticário.
- Managed incidents end to end in ServiceNow and carried out Windows and macOS operating-system rollouts.
- Administered and troubleshot accounts in Active Directory, Jamf and Azure; supported Microsoft 365 and prepared detailed technical documentation on incidents and resolutions.

Cosmetici Group Apr 2022 – Mar 2024

Machine Operator / Production Assistant

- Worked in a manufacturing environment focused on process optimization, material organization, inventory control, continuous improvement, operational efficiency and production targets.

KEY PROJECTS

MacroFlow

Windows macro recorder and automation app for capturing, editing and replaying mouse and keyboard actions through a visual interface. **Technologies:** Python, Windows

GitHub · Live demo / Windows download

KeyCheck

Browser-based keyboard and mouse testing tool for support diagnostics, with ABNT2 and ANSI layouts and event history. **Technologies:** HTML, CSS, JavaScript

GitHub · Live demo

Arraso Moda Feminina

Responsive landing page for a women's fashion and accessories store, showcasing products, visual identity and store information. **Technologies:** HTML, CSS, JavaScript

GitHub · Live demo

Password Generator

Browser-based strong-password generator with configurable options and cryptographically secure local generation; passwords are not sent to a server. **Technologies:** HTML, CSS, JavaScript, Web Crypto API

GitHub · Live demo

Quanto Falta? Countdown Timer

Responsive countdown and elapsed-time web app with real-time updates and local browser storage. **Technologies:** HTML, CSS, JavaScript, LocalStorage

GitHub · Live demo
